

1 April 1964

Col. White:

1. We were advised today that State Department sent a cable to all posts advising that first class air accommodations could be used only;

- a. By Ambassadors or Chiefs of Missions,
- b. When less than first class was not available and a delay would not permit accomplishment of the individual's mission,
- c. When travel is for medical reasons and the comfort of the individual dictates use of first class accommodations.

2. You indicated that you wanted to discuss this with Mr. Porter or Mr. Crockett of State Department to determine whether this change in policy was a continuing one, or was issued at this time because of budgetary considerations.
